WIRELESS

- Transmission through obstacles such as walls is possible.
- 4 digit code selector switch built into the transmitter and receiver, to allow for individual codes to be set, protecting against interference from other sources.
- The frequency of 433MHz used by the hähnel Pro Remote Control is a licence free frequency in all European countries, approved under EEC/DEC (0402)
- The hähnel Pro Remote Control provides for auto-focusing before shutter release and a lock in function for continuous shutter release and bulb exposure function.
- The camera connectors are interchangeable. The connectors needed for all digital SLRs of one manufacturers brand are included with the relevant Pro Remote Control.

Batteries included
1 x 23A and 1 x CR2 Lithium.

CABLE RELEASE

Remote Shutter Release with 2m extension cable

- A new innovative cable remote control for digital SLR's, with interchangeable camera connectors and 2 meter extension lead.
- The hähnel Remote Shutter Release can be used from a distance of 0.8m if the extension lead is not used or from 2.8m with the use of extension lead.
- The remote control provides for auto focusing before shutter release and a lock in for continuous shutter release and bulb exposure function.
- The camera connectors are interchangeable. The connectors needed for all digital SLRs of one manufacturers brand are included with the relevant RF Remote Control.
